## TIBCO

TIBCO has had a long history of providing enterprise and system connectivity. Their offerings consist of the following major products:

- TIBCO ActiveEnterprise – Enables real-time communications between computer systems and the coordination of end-to-end business processes.
- TIBCO Adapters – Lets users integrate off-the-shelf applications and databases into their e-business infrastructure.
- TIBCO BPM – Lets users streamline your operations by automating routine processes and transformations and coordinating complex workflows and exception handling scenarios.
- TIBCO BusinessWorks – Enables users to rapidly deploy a packaged integration solution and manage the entire lifecycle of integration projects.
- TIBCO Enterprise for JMS – Provides a standardized interface for enabling communications between J2EE-compliant applications, Enterprise Java Beans, and application servers.
- TIBCO Hawk – Provides comprehensive system monitoring and management capabilities.
- TIBCO InConcert – Lets users automate the workflow of customer-oriented processes that rely on human intervention.
- TIBCO IntegrationManager – Lets users define and manage automated business processes that span multiple applications and transactions.
- TIBCO MessageBroker – Performs automated message transformation and business object mapping.
- TIBCO Rendezvous – An advanced and flexible messaging system, and is the foundation of ActiveEnterprise. An added transactional quality of service is available with TIBCO Rendezvous TX.
- TIBCO Substation ES – Enables the real-time and non-invasive integration of mainframe applications into end-to-end business processes.
- TIBCO ActiveExchange – Enables the exchange of documents over the Internet and the comprehensive management of partners and interactions.
- TIBCO BusinessConnect – A business-to-business (B2B) integration server that lets users integrate trading partners into their business by enabling and coordinating complex cross-company processes and transactions.
- TIBCO BusinessPartner – A lightweight B2B server that users can distribute to their partners, customers and vendors that don't have B2B systems of their own so they can participate in cross-company processes and transactions.
- TIBCO PartnerExpress – An add-on to BusinessConnect that lets trading partners

### TAKE CREDIT FOR READING ZAPTHINK RESEARCH!

Thank you for reading ZapThink research! ZapThink is an IT market intelligence firm that provides trusted advice and critical insight into XML, Web Services, and Service Orientation. ## About ZapThink, LLC

ZapThink is an IT market intelligence firm that provides trusted advice and critical insight into XML, Web Services, and Service Orientation. We provide our target audience of IT vendors, service providers and end-users a clear roadmap for standards-based, loosely coupled distributed computing – a vision of IT meeting the needs of the agile business.

ZapThink's role is to help companies understand these IT products and services in the context of SOAs and the vision of Service Orientation. ZapThink provides market intelligence to IT vendors who offer XML and Web Services-based products to help them understand their competitive landscape and how to communicate their value proposition to their customers within the context of Service Orientation, and lay out their product roadmaps for the coming wave of Service Orientation. ZapThink also provides implementation intelligence to IT users who are seeking guidance and clarity into how to assemble the available products and services into a coherent roadmap to Service Orientation. Finally, ZapThink provides demand intelligence to IT vendors and service providers who must understand the needs of IT users as they follow the roadmap to Service Orientation.

ZapThink's senior analysts are widely regarded as the "go to analysts" for XML, Web Services, and SOAs by vendors, end-users, and the press. They are in great demand as speakers, and have presented at conferences and industry events around the world. They are among the most quoted industry analysts in the IT industry.

ZapThink was founded in October 2000 and is headquartered in Waltham, Massachusetts. Its customers include Global 1000 firms, public sector organizations around the world, and many emerging businesses. ZapThink Analysts have years of experience in IT as well as research and analysis. Its analysts have previously been with such firms as IDC and ChannelWave, and have sat on the working group committees for standards bodies such as RosettaNet, UDDI, CPExchange, ebXML, EIDX, and CompTIA.

Call, email, or visit the ZapThink Web site to learn more about how ZapThink can help you to better understand how XML and Web Services impact your business or organization.
